

Pervasive Nation access charges

Category	€	Unit	Comment/Guidelines
Device hosting	2.25	/Device/month	Connecting and hosting of client device data on Pervasive Nation platform.
Gateway hosting	60	/Gateway/month	Associated with the hosting of third party gateways or Pervasive Nation Gateways deployed to support a specific client project for an agreed timeframe.
		To be advised	Cost of providing GPS-less relocation data for LoRa based devices on Pervasive Nation.
Technical Services	75	/hr	Associated with technical services associated with supporting deployment, integration and testing of client technologies.

Example: For a project consisting of a trial of new sensors (10 off) for a period of 6 months that requires the deployment of two gateways and integration support of 2 days, the access charge cost to Pervasive Nation is €2,055.

Note 1: Industrial innovation-led projects that require technical feasibility and assessment from HEIs as part of a Research Question, and which would include an LPWA trial such as the example above, are eligible for Enterprise Ireland's [Innovation Voucher scheme](#).

Note 2: For H2020 projects, the monthly cost per project is dependent on the scale, scope and the nature of the R(IA) project. Typical average project costs are in the range €250 - 1,250/ month averaged over a typical project of 3 years.

The above Access Charges are periodically reviewed and revised.
